The Hungarian Exiles in Illinois.

A correspondence appeared in one of the City paper a day or two ago, containing statement-too outrageous to be true. At least so we though at the time, and would not consequently transcribe them. We have been since asked why we did not publish them. Their extravagance is sufficient anwer. But we have realized such strange things of late that nothing now would be impossible. We give the story therefore. It is in brief this. That in the State of Illinois, where common labor on a railroad construction was given to the Hungarian Exiles, and where men born to affluence perhaps and reared in legance were content to bend them to the rudest and hardest labor to earn a crust and water, a German Cathelic priest cursed them from his altar, and the Irish laborers on the line assaulted them most butally and drove them into the woods. It is added that at the time the attack was made, one of them was reading the Bible to the rest. We yet disbelieve this story But it is possible,

and if true we shall take care that the guilty shall

THE FORREST CASE. - In the Superior rest was called in its order, when, on motion of John Cour yesterday morning the case of Forrest vs. For-Van Buren, Esq , (and by consent of all parties) it was further postponed until the first Monday in De-

IF On Sunday a portion of the Hungamans attended service in the morning at Dr. Cone's, in Broome-st, and in the evening at Mr. Beecher's in Brooklyn. Afterwards they were introduced to Mr. B. and engaged on Tuesday evening to attend a lecture on Hungary, by Rev. D. P. Rogers, before the Brooklyn Philomathean Society, when Col. Berzedczey will make a brief address.

TRADUCING AGAIN .- The Times asks for the head and front of his offense, to which we alluded as "traducing." No one could suppose that ou lively cotemporary has been guilty of bad manners, but the "head and front" of his article entitled "Scraps traduced from Prench papers," we hold to be a willful outrage on the United States English "fat burglary," perhaps " treason."

The 8 o'clock downward train on the Hudeon River Railroad, on Saturday night, ran upon a rock about two miles above Oak Hill, whereby the engine (a new and powerful one) was upset and much damaged. The engineer and firemen escaped with some very slight bruises, and all the passengers were uninjured. Three oxen were killed, out of a large number of cattle on freight. The rock had been loosened from a steep bank by the rain on Saturday morning. The Conductor suspected that such an event might happen, and was running only 12 miles an hour. Had the speed been up to the usual mark it is quite probable that many persons would bare been killed.

Doctors BAFFLED .- Sunday morning gentleman in the saloon of French's Hotel, in Park-row, suddenly fell down in a fit of apoplexy. Anon-professional gentleman, who was undergoing the operation of shaving in the barber's shop, seeing the operation of shaving in the barber's shop, seeing the occurrence, rushed out with the lather on his face and the towel around his neck, to his assistance. He procured a pitcher of ice-water and poured the cold fluid upon the patient's head, and brought him to, and had him walking about in about five minutes, just in time to give "the time of day and the top of the morning" to two physiciaus who had been sent for in a burry, but who had full permission to retire with their lawcets "in rest," there being no necessity for the services of either.

MISSIONS IN ST. HELENA. -On Sunday morning, Rev. J. McGregor Bertram, of St. Helena, delivered a highly interesting address on the Mis-sionary worth of that Island, in the Presbyterian Church, corner of Houston and Thompson-sts. Mr. Bertram having designed laboring among the nations of South Africa, had spent some time at the Cape of Good Hope. While there, a young man, a native of St. Helena, who had come to the Cape to carry on bisbusiness, became a Christian, when he presented the claims of the Island to the Churches at the Cape Wa Missionary field. St. Helena is a rock in mid cean, 1,800 miles from the Cape of Good Hope, 1600 miles from Rio Janeiro, 1,200 from the African coast, and 600 from the Island of Ascension, and with its lofty and precipitous cliffs rising from 500 to 2000 feet in hight, it is like a vast rock in the sea-Yet, though forbidding in its approach, on entering harbors, and penetrating into the valleys, the most delightful climate, the most lovely valleys and

The Island is passed in the population is about 7.500—composed of 1,500 whites, 1,600 liberated Africans rescued from siave ships, and 3,600 manves, who are a mitter of Portuguese and Africans early introduced in the brilliant period of Portuguese discovery and navigation. They are ignorant and degraded, and were without any knowledge—without he ited of a soul or of a God, until they were taught by the missionary. Being three-fourths colored, they had been enslaved by the whites, until the glorious period of British emancipation.

Mr. Bertram, on the representation of the young convert before spoken of, turned his attention to this Island, as a missionary field. He was the first disenting minister who had ever entered the hartor for the purpose of settling there. The account he speaker gave of the first preaching, the first convert, a young man of the finest talents and education, who is now an ordained minister in one of a churches, the gathering of the natives, and their tabils, together with the occasional descriptions of alural scenery, were highly interesting. It is but bout are years since the speaker first went to St. Selena, and there are now a church of whites, and wo native churches, and several Sunday schools. MEETING FOR THE AMERICAN TRACT SO-CIETY .- At Rev. Dr Cheever's Church, last night, a meeting was held for the purpose of advancing the work of the above Association. Dr. Cheever, Rev. Mr. Bliss and R. S. Cook made addresses. Mr. Bliss exhibited a large map of America, illustrating his remarks upon the vast importance of the field and the work, and spoke of the efforts of the Papacy to exwork, and spoke of the efforts of the Papacy to extend their system over the continent. Mr. Cook spoke of the importance of Protestantizing the people. The masses were not reached by the Church, and some other means must be taken to reach them. The Colporteurage system was the most effectual, and he hoped the Society would be aided to send more laborers into the field to improve religious foeling in the West. Dr. Cheever briefly addressed the meeting, observing that intemperance was the great enemy of the gospel, after which a collection was taken up and the audience separated.

ARRESTS FOR ASSAULTS, &c.—Late on Saturday night a man named Gilbert Ross was arrested by officer Hogan of the Fourth Ward, charged with assaulting Frederick Hetaler with a slung shot, and threatening to take his life. He also drew a knife and attempted to stab the officer who arrested him. Justice Lothrop committed him to prison for treal

An Irishman named John McNamara, about 8 o'clock on Saturday evening, while in Anthony-st., waiked into a vile den kept at No. 146, and asked for a drink of water. the demand, when he was attacked by several black scoundries, who, after getting him down succeeded in cutting from his pocket a wallet containing \$103-25, with which they escaped. Officer Lord and others of the Sixth Ward Police soon after arrested a black fellow named Wm. Tucker, on suspicion of being one of the party. He was taken before Justice Lothrop and committed to await examination.

A man named Jacob Moulton, a butcher, doing business in Avenue A, was arrested at a late hour on Saturday night by officer White, of the Seventeenth Ward, charged with assaulting and attempting to take the life of Ludwig Clavenstein, also a butcher, residing in Broome-st. It seems that the complainant was passing the shop of the accused when the latter ran out, and with a drawn sword attacked him. Having nothing but a cane in his hand, he had much difficulty in warding off the blows and thrusts of his adversary, and was finally compelled to fly for his life. Moulton, however, soon overtook him, and after bringing him to a stand, succeeded in inflicting upon his hand a dreadful wound, which will probably disable him for life. He was then arrested and taken before Justice Mountfort, who locked him up for trial.

DARING BURGLARY IN WALL-STREET.—
About 10 o'clock on Saturday morning, two daring rascals broke open the front door of store No. 10! Wall-st., which they entered, and were making a demonstration on the safe, which contained a large amount of money. As their efforts were about being successful, two young men employed in the store, having some business there, found the scoundrels busily engaged in their nefarious operations. Finding themselves detected, the scoundrels rudely pushed aside the youngsters, and rushed into the street, leaving behind them a carpet bag, in which they intended to place their pluder, also two coats, cap, &c. By the timely discovery the rascals were prevented from steading and carping away any plunder, of which, had they not been moiested, they would have made a great haul. The premises are occupied by Mr. J. T. Smith, commission merchant, and others engaged in the same business. No clue to the burglars has as yet been ascertained, although every effort is being made to discover and bring them to justice. The desperadoes seem determined to obtain a portion of the immense sums of money which are treasured up in the vaults of Wall-st. DARING BURGLARY IN WALL-STREET .--

ATTEMPT TO MURDER .-- A man by the ATTEMPT TO MURDER.—A man by the name of Henry Burns was arrested on Saturday evening by officer T. Clark of the Ninth Ward, charged with attempting to shoot Claus Wittschen, a grocer doing business at the corner of Charles and Fourth-sts., and a Mrs. Mannel, residing at No. 95 Fourth-st. It seems that the fellow, for some reason, became angry with his wife, who resided at service at No. 45 Perry-st, and determined to kill her Accordingly he procured a double-barreled service at No. 45 Perry-st, and determined to kill her Accordingly he procured a double-barreled pistol which he loaded with powder and balls, and went to her place of residence, but failing to gain admission to the house, he fired one of the charges at the door, and then seeing Mrs. Mannel passing on the opposite side of the street, he mistook her for his wife and chased her into her own residence. He then went to the grocery of Mr. Wittschen and threatened to shoot him. Officer Clark happened to be next door and immediately went in, and after some difficulty arrested him and took him before Justice Bleakley, who held him for examination.

TRAGEDY IN ST. LANDRY.—The Opelousias Gazette of the 29th uit. gives the following account of a tragedy in the parish of St. Landry. On last Friday night, between the hours of 10 and 12 o'clock, one Dr. J. W. Hopkins, of Plaquemine Brulee, entered the house of John D. Moore, eighteen miles from this place, in our parish, accompanied by a negro armed with a double-barreled shot gun.—Hopkins attacked Moore with his pistols and bowiekinfe. Moore being unarmed, seized him and threw him down, and was about to wrest from him his bowie-knife, intending to use it in defense of his life, when Hopkins called upon the negro, fasking him why he did not shoot him. Upon which the negro requied that he could not shoot without killing both. Hopkins then said shoot any how. Moore then spring to the negro, seized the gun, and was about succeeding in taking it from the floor, advanced upon him with his pistols and bowie knife. He then enceavored to make his escape through his back door. Hopkins pursued him, and fired without effect. Hopkins then returned into the house, demanded of Moore's wife the keys, and bid her give him John Lyons' money, (the father-in-law of both Msoore and Hopkins.) she replied they had none of John Lyons' money. He took the keys, searched the house, and found sixteen dollars in the press, He then turned to her and said he would leave no witness against him, that he intended to kill her. She begged for her life. He took her by the arm and endeavored to turn her around in order to shoot her in the back. She resisted, and said to him if he shot she should see him de it, that he should not shoot her in the back. He then fired, she threw up her arms for protection, the ball struck her hand, nearly cutting off two of her fingers, striking her abdomen, and luckily the ball glanced, and did not penetrate the intestines or bowels. The monster then mounted his horse and fied. There are now six men in pursuit of him. We learn they are on his track, and will doubless arrest him.
